## Pavel Kraus

*What happens if knowledge is not managed or when people think and act for you without telling you. How bad can it get?*

This is the question Pavel Kraus can answer in details. Much more than many people even want to know. It lead him to experience a lot of situations where he could literally predict failure. He will share two of the stories with us.

Pavel is Management Consultant at AHT.ch and President of Swiss Knowledge Management Forum. Pavel worked as Knowledge Networking Officer for Roche Diagnostics from 1998 to 2000 focusing on improving innovation projects in research. In the last 18 years Pavel lead numerous Knowledge Management projects for Novartis, Roche and other larger organizations.

## Beate Hackmann

Beate is a consultant, NLP master and coach supporting leaders in organizations in business development and training. She firmly believes in the pareto principle and uses it to get to the point and ahead with her clients. She does not only bring a lot of creativity and ideas but a lot of experience from 16 years of working in the banking environment for clients from different industry backgrounds. Her story is coming from those years.
